

Sales Tax

Ohio is an origin-based state, for this reason taxes are calculated on Columbiana County tax rate, where Living Better Quail is located. This tax rate is 7.25%.

Definition: **Origin-based sales taxes** - the tax rate is calculated from the origin of the provider. The business is the provider. So, the tax rate applied to the sale must be the local rate *where the business is located*. The total rate applied to the transaction includes all relevant levels of sales tax together: state, county, city, and district.
